(1)- Height indicates measurement in mm from centre of wheel to guard, +/- 1.5%.

Superlow applications with LPG can use standard low rear. These heights only available when using Whiteline specified shock absorbers.

(2)- Price in A\$ includes GST, excl. freight. Special net price for package part number.

(3)- Handling and Works fitting prices include wheel alignment. These rates only available when purchasing parts kit from same dealer.

(4)- Options: These items not included in package but available as separate item.

(5)- Front shocks are gas replacement strut leg, rear is gas replacement shock. 1301312 is sport rated externally adjustable gas insert conversion requiring modification to existing strut legs. 1101211 is sport rated adjustable gas shock.

(6)- Rear spring spacer used for vehicles fitted with LPG or heavy rear load. Raises ride height 12mm.
